Flowchart for student quarantine/self-isolation on arrival

Student completes Passenger Locator Form (PLF) 48hrs before arrival and have a negative PCR test no more than 72 hrs before arrival. Must also book relevant number of PCR tests to arrive at quarantine/self-isolation address.

If arriving from a RED List country they must go into Managed Hotel Quarantine at their own cost.

If student becomes symptomatic during travel, they should notify crew/staff, they will be isolated where possible and on arrival UKBF will provide an isolation room and contact with HPS to carry out risk assessment. Further information and advice will be given and PHS will arrange safe transport to private accommodation/Campus.

On Campus

Private accommodation

If student arrives at port not showing symptoms, they can then use public transport, (wearing a face covering and maintaining physical distancing) to go to their final destination.

Student must isolate for 10 days following the current guidance and taking the PCR tests as in the guidance.

Within room students self-isolating will be provided with:
- bedding pack
- essentials pack (food for 48hrs & utensils etc)
- cleaning starter pack

Students should download SafeZone so they can access emergency support 24/7.

If symptoms develop or positive test result follow relevant flowchart, if no symptoms develop after 10 days isolation can stop.

Student must isolate for 10 days following the current guidance
ResLife will deliver PCR test kits when they arrive

Key for room will be issued with an information pack including induction information, contacts during the period, what to do if you develop symptoms, how to order food during self-isolation.
