

Women in Engineering Scholarship (WIES)

Founded in 1821, we were the first Mechanics' Institute in the world. We were also the first institution in Scotland to admit women into STEM programmes. Since opening our doors in Malaysia, we've made it possible for women in the ASEAN region to gain access to quality teaching and learning in the field of Engineering. Committed to widening access, and reducing the gender gap in this field, we have developed this scholarship especially for women who want to pursue a career in Engineering.

Applications are open for the following programmes:

- MEng Chemical Engineering with Oil and Gas Technology
- MEng Mechanical Engineering
- MEng Petroleum Engineering

Application Deadline:
28 December 2018 (January 2019 intake)

WIES encompasses four (4) core components:

PERSONAL DEVELOPMENT

Scholars will gain self-management skills, enhance self-awareness and self-esteem, improve presentation skills while having the opportunity to learn new ones and cultivate strengths, talents, emotional intelligence and lifelong learning.

PROFESSIONAL DEVELOPMENT

Scholars will be equipped with the necessary technical and non-technical skills to be industry-ready graduates.

LEADERSHIP DEVELOPMENT

Scholars will be empowered to lead and learn how to engage and manage people.

GLOBAL EXPOSURE

Scholars will be exposed to opportunities to learn about new culture and society, develop confidence and network with other female Engineering students.

**100% or 50%
Scholarship**

Selection Criteria

This scholarship is open to female students with academic results of at least **2As and 1B in their A-Levels or equivalent** and with a strong passion to pursue Engineering. Applications will be assessed based on applicants' academic achievements, involvement in extra-curricular activities and leadership roles. Applicants will also need to include a personal statement (of 500 words) stating:

- Their interest in the Engineering field of choice and why
- Future career aspirations

An interview session will be held with the Selection committee consisting of representatives from the University on **4 January 2019**.
