Welcome address by President of Watt Club Singapore

Financial Statement 31st Jul 2022

Watt Club Activities 2021-2022
A great thanks to the WCS management committee 2021-2022 and we managed to meet at Marche Suntec on 29 Jul 2022.

At this juncture, WCS committee would like to congratulate our 2nd Vice President Mr. Han He on his wedding on 3rd December 2022 in Kuantan Pahang.

Covid is still in our mind. Let us be positive and looking forward for a better tomorrow and I sincerely hope everyone stay safe and healthy.

We, WCS are honoured to collaborate, share our activities and events with Chartered Association of Building Engineer Singapore Chapter, The Chartered Institute of Building (Singapore), Singapore Institute of Building Limited, Trent Global College (Singapore) and SRMEG Society for Rock Mechanics & Engineering Geology (Singapore)

A Big Thank you for all your kind support to Watt Club Singapore.

MOU – SIBL AND WCS DATED 14TH JAN 2022
UPCOMING WEBINAR

Digitalization for Greater Productivity

Friday, 21st January – 3:00 PM SGT

REGISTER NOW

FOREWORD

SIBL is pleased to announce its first joint webinar with Sansan, our newest SIBL Corporate Member. Join Edward Senju, Sansan Regional CEO and Vanessa Tang, AcePUL and SIBL Board Director as they share how on-site and back office professionals in the Singapore built environment sector can potentially rethink the ways to implement and reap the benefits of digitalization, as the industry continues to better navigate the on-going pandemic.

Seats are limited, so get your first headstart of 2022 and register now!

Dr. Kwee Yeong Ming
Chairman of SIBL APDC

SESSION 1

Building Information Modeling (BIM) in a Common Data Environment (CDE)

An on-going race towards a major shift in the construction industry’s approach to design and engineering teams is the drive towards digitalization. The use of software and information technologies has been gaining momentum and gaining traction in the industry. This webinar will delve into the latest tools for common data environment (CDE) and the benefits of BIM in enhancing project management.

Vanessa Tang, AcePUL Director, is an experienced thought leader in the field of digital transformation and information management. She will share insights on how CDE and BIM can work together to streamline project management.

SESSION 2

Kaizen for Business Process Transformation – From Analog to Digital

by Edward Senju, Sansan CEO

Building a business culture that is focused on continuous improvement is essential for any organization. This webinar will discuss how the concept of Kaizen can be applied to business processes to improve efficiency and productivity.

Edward Senju, Sansan CEO, will share insights on how Kaizen can be integrated into business processes to drive innovation and growth.

SESSION 3

Korean System

A key driver of change in the built environment sector is the adoption of technology. This webinar will explore how the Korean System, a comprehensive framework for organizing and managing construction projects, can be applied to enhance project delivery.

Vanessa Tang, AcePUL Director, will discuss the key features of the Korean System and how it can be implemented to improve efficiency and quality in construction projects.
