United Arab Emirates (UAE) law requires all non-national (except GCC nationals) students to obtain a ‘Student Entry Permit’, followed by a ‘Student Residence Visa’ for the duration of their studies. We provide visas for applicants studying on any of our structured academic programmes and is valid for 12 months and renewable each year for students studying on a structured programme at the University.

Once the student has accepted the offer of admission, cleared all academic conditions (if any) and submitted all appropriate financial documentation, the process for arranging a Student Visa (Entry Permit and Student Residence Visa) will begin. The process normally takes between 15 - 20 working days. It may be necessary for the application to undergo a security check by UAE government authorities, which may delay the process and is out with the control of the University. An express service is available and will complete the process within 7-10 working days (not including any additional time for security checks). It is recommended that the application is submitted as soon as possible as delays may result in the student not able to enrol for the chosen intake and/or receiving a fine for ‘overstay’ with regards to the ‘Student Entry Permit’.

The University requires all students on our University Student Residence Visa to have medical insurance for the duration of their study. A copy of the insurance documents must be submitted with the application. Alternatively, students may purchase the University’s medical insurance at an additional cost (see below).

A: As per the Dubai Immigration Regulations, a candidate on a ‘tourist’ visa can apply whilst based in the UAE however they will be required to leave the UAE through Immigration and re-enter with a ‘student’ visa.
