**COURSE DETAILS**

**Course Code:** F29XO  
**Full Course Title:** Computer Networks  
**SCQF Level:** 9  
**SCAF Credits:** 15  
**Available as Elective:** No

**Additional Information:**

---

**COURSE AIMS**

To introduce computer network architecture, protocol design and develop design network application systems skills

---

**LEARNING OUTCOMES – SUBJECT MASTERY**

Understanding computer network architecture and its design principle

Ability to design network protocol

Ability to design innovative web application system

Ability to design and develop

---

**LEARNING OUTCOMES – PERSONAL ABILITIES**

Ability to learn independently and work in teams

Communication skills and international perspective

---

**SYLLABUS**
F29XO Computer Networks

Course requirements and layered architecture

Composition and communication of the transmission system

Principle of frequency division multiplexing, multipoint access, CSMA/CD

Wireless access, IEEE 802.11

Basic problems of routing, OSPF and RIP

Principle and implementation of TCP

Design and implementation of network applications
