F71PD Pensions B

COURSE DETAILS
Course Code: F71PD
Full Course Title: Pensions B
SCQF Level: 11
SCAF Credits: 15
Available as Elective: No

DELIVERY LEVEL
Undergraduate: Yes  Postgraduate Taught: Yes  Postgraduate Research: No
Additional Information:

COURSE AIMS
The aims of this course are:

- To provide a good understanding of the risks and uncertainties facing the parties involved in pension provision
- To provide a thorough understanding of actuarial models used in the management of pension schemes
- To provide an understanding of risk management in pension schemes, including the use of reinsurance
- To provide an understanding of how to monitor the experience of pension schemes

LEARNING OUTCOMES – SUBJECT MASTERY
On completion of this course the student should be able to:

- Describe the risks and uncertainties affecting benefits, contributions, returns on assets and security
- Describe the process of population projection and its main determinants
- Discuss the use of actuarial models for decision making purposes in non-state pensions
- Discuss the application of actuarial methods and techniques to the financial management of a social security scheme
- Discuss the principles behind the determination of assumptions for valuing future benefits and contributions
- Discuss the principles behind the determination of discontinuance terms in respect of benefits
- Discuss how to determine values for assets, future benefits and future contributions
- Discuss the application of actuarial methods and techniques to the financial management of defined contribution pension schemes
- Analyse the asset-liability matching requirements of a provider of pensions and related benefits
- Discuss the principles underlying the use of re-insurance
- Identify the sources of surplus/deficit for a benefit provider
- Explain why and describe how the actual experience of a pension scheme should be monitored and assessed

LEARNING OUTCOMES – PERSONAL ABILITIES
F71PD Pensions B

- Show an appreciation of the interface between academic theory and industrial practice
- Demonstrate the ability to learn independently and as part of a group
- Manage time, work to deadlines and prioritise workloads
- Present results in a way that demonstrates that they have understood the technical and broader issues of the pensions environment
- Show an appreciation of the various potential conflicts between pensions stakeholders

SYLLABUS
