ISSN 1366-5545,
<https://doi.org/10.1016/j.tre.2021.102269>.

In addition I submitted this to the EUROMA conference last year:

Generation of synthetic consumer orders for urban retail delivery simulations: a Bayesian framework to produce well-conditioned samples from order data

- Contributors:
Gripton, A., Utomo, D. S., Greening, P.
- Publication date:
15 May 2020
- Peer-reviewed:
Yes
- Event:
Paper presented at 27th Annual EurOMA Conference, Warwick, United Kingdom.
