OUR COURSES

THE EDINBURGH BUSINESS SCHOOL APPROACH

An industry-focus is built into every course on this degree to ensure that your studies reflect current thinking and practices of successful organisations and their leaders.

Our courses are brought to life with case study-driven assignments, applied group projects and guest lectures from industry leaders.

We have crafted several new courses for 2022 entry to ensure your learning is future-proofed and to align this degree with the Chartered Institute of Marketing accreditation criteria.

Marketing Project

You will spend some time working in the marketing industry as part of your degree, putting into practice your developing knowledge and understanding.

Global Strategic Marketing

Featuring strategic marketing techniques within a global context; competitive analysis, market segmentation, forecasting, and product portfolio analysis.

Marketing Insights

Teaching cutting edge marketing research processes & methods of data collection. Exploring analysis techniques and applications to provide marketing insights in a variety of business specific situations.

Responsible Marketing

You will assess the tensions and complexities in marketing and consumer behaviour, and examine the current debates around the benefits, harms and unintentional consequences of marketing and consumer actions today.

Branding

You will explore cutting edge theory to understand brands and a strategic approach to branding, you will assess how branding theories are applied in marketing strategies today.

Future Issues in Marketing

You will be able to assess and identify emerging global market trends and utilise a toolkit of marketing theory and principles to scrutinise these trends.

Digital Analytics for Marketing

You will examine how digital analytics inform search engine marketing strategy and website design. We will demonstrate how analytics tools work and can be applied to monitor marketing performance.
