New funding

The robots are coming!

An interdisciplinary group of students and academics from across the University, hosted by Pepita Calia and Waltraud Schlotz, shared their research on social robotics with the audience at the Wellcome Genome Campus in October. The research was presented in the form of demonstrations and short talks. (Maria Garraffa)

In the context

Heriot-Watt University, Edinburgh Campus, Graduation Ceremony.

Conference and outreach activities

Claire Porto is starting to latch up to Blue Peter's Blue Planet appeal on CBBC.

What happens if you...?

Join the Edinburgh New Town Theatre to launch the University of Edinburgh’s next season.

Reading and teaching

Nicola Stoddart, who held a Fellowship Scholarship, has been appointed as a Research Associate to work on the project Health, Culture, and Social Change in Mid-20th Century Scotland: A Qualitative Study of the Experiences of the Elderly of a Multi-Layered Community. (Maria Garraffa)

Professional development

Gerardo Fernandez, Universidad Nacional Del Sur, Argentina, spent 6 months in Psychology from August to January 2018 as a Visiting Professor. He gave several seminars and participated in some conference sessions. (Mari Garraffa)

The team truly are part of our world, and they have worked tirelessly to bring us together.

The team truly are part of our world, and they have worked tirelessly to bring us together.
