HERITAGE AND INFORMATION GOVERNANCE
Records Retention Schedule for Marketing

This category covers all marketing undertaken in the institution, including: marketing of the institution as an academic institution to prospective students; marketing the institution as a prospective business partner to other institutions and to commercial organisations; marketing of specific institutional facilities or services to specific groups of prospective customers/users inside or outside the institution.

This retention schedule is based on the recommendations made by the Joint Information Systems Committee. The letter indicates the final disposition of each type of record, and applies to original records. Where copies of originals are kept locally, these can be destroyed when these are no longer required.

- **A** = 1 copy to be transferred to the University Archive. See Retention Schedule Guidelines for further details.
- **D** = Destroyed.

The number following the letter code indicates the period (in years) after which records may be destroyed, and is the minimum retention period required by best practice or legislation. It assumes a new file is opened at the start of each academic, calendar and financial year, and is always calculated from the date of the last record in the file.
