Windows 10 Client
There is a 32 bit client and 64 bit client for Windows 10 installation.

Install the client
1. Download the client from http://www.hw.ac.uk/is/it-essentials/virtual-private-network-vpn.htm
2. Double click the Sonicwall VPN Connection shortcut on your desktop
3. Click Yes when prompted

Set up the connection
One installed, you can set up the VPN.

1. Double click the Sonicwall VPN icon on your desktop
   2. Click Next at the Welcome... window

   ![Image of Sonicwall VPN Connection Setup Wizard]

2. Enter hwvpn.hw.ac.uk in the host name field and click Next

3. Select Contractors from the dropdown, if support contractor – click Next or
   Select External User from the dropdown, if External User – click Next
5. Click **Finish** to exit the wizard
Log in to the VPN

1. **Double click** the icon to open the VPN connection
2. Enter your HWU username and password
3. **Click Connect**

   ![VPN Connection Dialog Box](image)

   - The dialog box will show that you are connecting to the VPN

   ![VPN Connection Status](image)

   - Once connected, the VPN icon will display briefly in the Notification area indicating that it has connected

Disconnect

1. **Right click** on the VPN icon in the Notification area
2. Click **Disconnect**

   ![VPN Disconnect](image)

Now open the Remote Desktop client or SSH shell to connect to the server

![SONICWALL Mobile Connect](image)

- You are now connected to the HW Edinburgh VPN

![SONICWALL Mobile Connect](image)

Disconnect

- Remember to disconnect from the VPN via the SonicWALL App when finished
Browser – Alternative login

The browser offers an alternative way to log in if there is any reason you cannot use the APP – *you should not use both together.*

The following instructions tell you how to setup and install the software required to connect to the Heriot-Watt Edinburgh VPN via your browser.

On your PC/laptop

Install the most recent version of JAVA

Edit your JAVA settings

1. Go to the Java Control Panel (open System preferences – then open Java )
2. Select the Security tab
3. Click Edit Site List
4. Click ADD
5. Type https://hwvpn.hw.ac.uk in the new row
6. Click OK
Using the VPN

Log in to VPN

1. Open a browser (Firefox preferred) and go to https://hwvpn.hw.ac.uk

2. Select **Contractors** from dropdown, if Support Contractor - Click **Next** or Select **External User** from dropdown, if External User – Click **Next**

3. Enter your **HW Username** and **Password**  
4. Click **Log in**

   - **If prompted** click on **Allow** to run JAVA

5. Click **Install** at the Secure Endpoint Manager page
• The Portal page access should be **Access: Full Network Access**

You are now connected to the VPN.

If this shows **Access: Web** please re-check your settings and login.

**Log out**
  • Click **Logout** to close VPN connection
