

# MACS Athena SWAN Newsletter

Issue 6 – February 2023

The Athena SWAN (Scientific Women's Academic Network) Charter was established in 2005 with the aim of “*Encouraging and recognising commitment to advancing gender equality*” within STEMM subjects, i.e., science, technology, engineering, mathematics, and medicine. The Athena SWAN agenda has grown overtime to promote equality in general.

## 1. A Celebration for International Women’s Days – Wednesday 8 March, between 1.15pm and 3pm

All students and staff are invited to join the MACS celebration for International Women’s Day on 8 March. The event starts at:

- **1.15pm** with a lunch in the **Earl Mountbatten Building** (i.e., “Learning Zone” and 1.82) followed by:
- **“A personal journey within the academic world”** a talk by **Professor Beatrice Pelloni** at **2.15pm** in **Lecture Theatre LT3**.

This is a free event, BUT numbers are limited so book today to avoid disappointment via **Eventbrite** – see QR Code below:

## 2. MACS Athena Swan Summer Undergraduate Bursary Scheme 2023

The aim of the “Athena Swan Summer Undergraduate Bursary” scheme is to help improve gender equality across our three disciplines. It ran for the first time over the summer 2022 and supported two students from Computer Science. The call for proposals for this summer will go out at the start of March. Bursaries will be worth £1000 and paid directly to the project students. Up to 4 bursaries will be awarded for the summer of 2023.

## 3. Maxwell Institute graduate School event devoted to Neurodiversity in academia

The ED&I teams of MIGS and MAC-MIGS, and the PGR director of MACS are organising an event on neurodiversity in academia. The speaker, Sara Rankin is a professor of Leukocyte and Stem Cell Biology at the National Heart and Lung Institute, Imperial College London. She is a well-regarded public speaker and the creator of several STEM outreach initiatives. Professor Rankin identifies as being neurodiverse. She is the founder of 2eMpowerUK, which runs STEM workshops for neurodiverse teenagers. She will speak about her experience as a neurodiverse scientist.
