

Dr Fadi Ghaith, Associate Professor, School of EPS

I have been working at Heriot Watt University, Dubai Campus since 2010. I am Associate Professor in Mechanical Engineering and Associate Director of Combined Studies. During the past years, I served as a Dean of Science and Engineering and I am a member in the University Court, Senate and many Senate standing committees (e.g. University Studies Committee, UCRI, RDC and ORC)

Before joining HWU, I held many positions in the Oil and Gas industry. I am a Fellow and Chartered Engineer in the Institution of Mechanical Engineering. Also I am Senior Fellow in the Advance Higher Education (SFHEA).

It is my honor to stand for the election for Dean of Science and Engineering for the 2nd term. During the current challenges due to Covid'19 pandemic, I will employ my varied experience to support the wellbeing of the academic staff and to contribute to enhancing the work environment. My utmost target is to promote and facilitate equality and diversity across the Academic community and fostering the principles of transparency and collegiality. I will take the responsibility to represent the academic staff and their valuable views and recommendations to promote the provision of high-quality educational opportunities at all University campuses.
